

Quality Policy

Onyx Projects Pty Ltd provides project management, engineering and operational support services to the resources and infrastructure industries.

The Directors of Onyx Projects Pty Ltd are committed to:

- Providing high quality, cost effective service which will satisfy all applicable stated and implied requirements,
- Monitoring and refining work practices to ensure that the service provided to our clients is appropriate and continually evolves to meet their needs,
- Implementing a structured Quality Management System,
- Regularly reviewing the Quality Management System in order to continually improve the effectiveness of our processes and the overall functionality of the Quality Management System.

Onyx Projects Quality Management System is based on AS/NZS ISO 9001, which requires its personnel to comply with, challenge the performance of, and improve the effectiveness of the system. Through the system, we will continually establish, review and re-establish quality objectives to support our strategic direction.

This Quality Policy is fundamental to the success of Onyx Projects. As Directors, we commit Onyx Projects to these objectives and encourage all of our personnel to support us in the consistent application and continued development of our Quality Management System.
